

VICTORIA ORISAKITE MORGAN

VISUAL DESIGNER | UI/UX | BRAND & INTERACTIVE DESIGN

Lethbridge, Alberta | (+1) 403-915-3887 | o.morganowiriwa@uleth.ca
linkedin.com/in/victoria-orisakite-morgan

SUMMARY

Visual designer with a Computer Science background, working across brand identity, UI/UX, editorial design, accessibility, and interactive digital experiences. Experienced in turning early concepts into cohesive visual systems, prototypes, and responsive interfaces. Comfortable moving between creative direction, user experience, and front-end implementation using Figma, Adobe Creative Suite, HTML, CSS, JavaScript, and React.

EXPERIENCE

WEB ACCESSIBILITY ASSISTANT

University of Lethbridge | Lethbridge, AB | August 2023–Present

- Review and improve university web content to support accessible and inclusive digital experiences.
- Identify accessibility issues involving content structure, alternative text, navigation, HTML, and XML.
- Collaborate with university teams to improve usability while maintaining content and visual consistency.
- Apply accessibility principles when evaluating digital content for users with different needs.

BRANDING & MARKETING LEAD / UX DESIGNER

Homecierge | Remote, Texas | June 2025–Present

- Lead brand storytelling and content direction across web and social platforms, maintaining a cohesive visual identity and brand voice.
- Contribute to user-facing flows for a home-services marketplace, including profiles, job postings, quotes, and reviews.
- Translate business and user needs into clear interface concepts, content structures, and digital touchpoints.
- Develop research- and SEO-informed content strategies to improve discoverability and engagement.
- Collaborate remotely with cross-functional stakeholders to align product, brand, and campaign direction.

FOUNDER & DESIGN LEAD

The Hive | Lethbridge, AB | 2023–Present

- Founded a student-led technology and design community focused on portfolio development, collaboration, and career growth.
- Lead branding and visual identity work for The Hive and partner student organizations.
- Design logos, colour and typography systems, event materials, and digital communications.
- Work with student leaders to translate goals and ideas into consistent visual identities and experiences.
- Direct creative initiatives across workshops, collaborative projects, events, and digital platforms.

SELECTED PROJECTS

THE PASTEL STOP — Brand, Web & Community Experience

Created a lifestyle and community platform for women from ideation through execution. Developed the brand strategy, identity, editorial website, UX structure, social content system, and event experience using Figma, Photoshop, and front-end development.

STYLE NOVA — Interactive Fashion Game

Redesigned a linear desktop dress-up game into a mobile-first interactive fashion experience with original character and outfit concepts, branching outcomes, scoring, dialogue, and multiple events. Used original 2D sketches and AI-assisted iteration to develop dimensional character assets while directing the interface, storytelling, and interaction design.

NAURYZ RED — Typography-Led Website

Created a concept website exploring typography as the primary visual language rather than decoration. Used one typeface across three roles: type as image, type in its natural habitat, and type as an interface component.

LEADERSHIP

PRESIDENT — GDG Student Chapter | Present

- Lead the planning and delivery of student technology events, workshops, and community initiatives.
- Coordinate speakers, partners, volunteers, communications, and event logistics.

ADDITIONAL EXPERIENCE

RETAIL SALES REPRESENTATIVE

TELUS | Lethbridge, AB | June 2024–Present

- Provide customer-focused technology recommendations while communicating complex products and services clearly.
